For you first. It was really broad brush and I know there are many ways to approach these things. I am just used to seeing the template that Jodi provided (and others follow) being used.

I referenced the Colorado Smelter Work Plan (how Tasks 1-15 are typically laid out) in my comments, so have provided it too for Mark. I also provided the CS SOW in case that helps you in any way - Mark may have not use for it. Sorry it took a few hours longer than anticipated.

Sabrina
